Cash and cash equivalents at beginning of year 558,947

Cash and cash equivalents at end of year \$ 672,560

See accompanying notes and accountants' compilation report.

NOTE 1 NATURE OF ACTIVITIES

The Southern California Business Development Corporation (the Company) was incorporated in September 1992 and commenced business in April 1993 as a for-profit consortium of 27 California banks. The Company's focus is community reinvestment by targeting small businesses with growth opportunities in Los Angeles, California. In August 1999, the Company decided to terminate its own lending program and to assist its target market through supporting the activities of Los Angeles LDC, Inc. (LALDC), a not-for-profit, community development financial services corporation, based in Los Angeles, CA. Accordingly, in August 1999 it sold its loan portfolio to LALDC, liquidated its securities portfolio and loaned \$2,500,000 to LALDC using a subordinated fixed rate promissory note. In December 2000, September 2002, and September 2005, the Company granted additional loans of \$500,000, \$200,000 and \$200,000, respectively, to LALDC.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The preparation of financial statements in conformity with generally accepted accounting principles in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting periods. Accordingly, actual results could differ from those estimates.

A material estimate that is particularly susceptible to change relates to the determination of the allowance for loan losses. Management believes that the allowance for loan losses is adequate. While management uses available information to estimate potential losses on loans, future additions to the allowance may be necessary based on changes in economic conditions.

Loans Receivable

Loans receivable are generally reported at the principal amount outstanding, net of unearned income, deferred loan fees and allowance for credit losses. Interest income is accrued daily as earned on all loans. Interest income is not recognized on loans receivable if collection of the interest is deemed by management to be unlikely.

The Company has a policy to discontinue the accrual of interest and transfer loans to nonaccrual (cash basis) status when reasonable doubt exists with respect to the timely collectibility of such interest and principal. A nonaccrual loan may be restored to accrual basis when future payments are no longer in doubt.

Impaired loans are measured based on the present value of expected future cash flows discounted at the loan's contractual interest rate or, as a practical expedient, at the loan's observable market price at fair value of the collateral. Loans are considered impaired when it is deemed probable that the Company will be unable to collect all amounts due (both principal and interest) according to the contractual terms of the loan agreement.

NOTE 2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Provision and Allowance for Credit Losses

The Company maintains an allowance for credit losses at a level considered by management adequate to cover probable losses on loans. The allowance for credit losses is increased by charges to income and decreased by charge-offs (net of recoveries). The allowance for credit losses is based on management's periodic analysis of the loan portfolio after giving consideration to the character of the loan portfolio, current economic conditions, past loss experience and such other factors as deserve current recognition in estimating credit losses. Although management uses the best information available to make these estimates, future adjustments to the allowance may be necessary due to economic, operating and other conditions that may be beyond the Company's control.

Cash and Cash Equivalents

The Company considers all highly liquid instruments purchased with a maturity of less than three months to be cash equivalents. The Company's policy is to invest cash in excess of operating requirements in income producing investments.

The Company maintains cash balances at one financial institution located in Southern California. Accounts are insured by the Federal Deposit Insurance Corporation up to \$250,000. At June 30, 2009, these uninsured funds totaled \$422,560.

NOTE 3 LOANS RECEIVABLE

On August 27, 1999, the Company granted a loan to Los Angeles LDC, Inc. for \$2,500,000, repayable on September 1, 2009. The loan is collateralized by a subordinated fixed rate promissory note. Interest is payable annually on September 30. In October 2002, the Company reduced the interest rate from 5% to 4%.

On December 22, 2000, the Company granted an additional loan to Los Angeles LDC, Inc. for \$500,000, repayable on September 1, 2009. The loan is collateralized by a subordinated fixed rate promissory note. Interest is payable annually on September 30. In October 2002, the Company reduced the interest rate from 5% to 4%.

On September 30, 2002, the Company granted an additional loan to Los Angeles LDC, Inc. for \$200,000 repayable on September 1, 2009. The loan is collateralized by a subordinated fixed rate promissory note. Interest is payable annually on September 30, at the rate of 4%.

On September 30, 2005, the Company granted an additional loan to Los Angeles LDC, Inc. for \$200,000 repayable on September 1, 2009. The loan is collateralized by a subordinated fixed rate promissory note. Interest is payable annually, at the rate of 4% commencing September 30, 2006.

Southern California Business Development Corporation
Notes to Financial Statements
Year ended June 30, 2009

NOTE 3 LOANS RECEIVABLE (CONTINUED)

On September 30 of each year commencing in 2005, unless the Company delivers a termination notice to Los Angeles LDC, Inc. to the contrary prior to September 30 of each such year, the maturity of each loan will automatically be extended by one additional year. However, the Company is under no obligation to provide any such extension. Such one-year extensions shall continue indefinitely, until the Company notifies Los Angeles LDC, Inc. of its determination not to extend the maturity.

As set out by each subordinated note, Los Angeles LDC, Inc. agreed to adhere to several covenants, during the term of the notes. These covenants deal with the business activity and loan products of Los Angeles LDC, Inc., maintenance of specific percentage loan loss reserves, defined capital, loan, and subordinated debt ratios, annual audits, quarterly financial, loan and delinquency reports, and annual certification of adherence to the covenants. The Company's Board of Directors subsequently reduced the loan loss reserve requirement to 3%.

An analysis of the change in allowance for credit losses for the year ended June 30, 2009, follows:

Balance at beginning of year	\$	170,000
Recoveries of loans previously written off, Net of expenses		-
Provision (credit) charged to income		-
Balance at end of year	\$	<u>170,000</u>

The Company did not have any impaired loans as of June 30, 2009.

NOTE 4 MANAGEMENT SERVICES AGREEMENT WITH LOS ANGELES LDC, INC.

In March 2002, the Company entered into a management services agreement with Los Angeles LDC, Inc. in which the Company agreed to compensate Los Angeles LDC, Inc. for the provision of general administrative services. The Company also agreed to pay Los Angeles LDC, Inc. 50% of any recovery obtained from certain written-off loans.

NOTE 5 INCOME TAXES

Under the liability method, deferred tax assets and liabilities are determined based on the difference between the financial statement and income tax basis of assets and liabilities as measured by the enacted tax rates which will be in effect when these differences reverse. Deferred tax expense is the result of changes in deferred tax assets and liabilities. Valuation allowances are established when necessary to reduce deferred tax assets to the expected amount to be realized.

NOTE 5 INCOME TAXES (CONTINUED)

The provision for income taxes for the year ended June 30, 2009 consists of the following:

Current				
Federal	\$	-		
State		10,500		
		10,500		
Deferred				
Federal		-		
State		-		
		-		
	\$	10,500		

The principal types of differences between assets and liabilities for financial statement and income tax return purposes are allowance for credit losses and net operating loss carry forwards. These differences resulted in a deferred tax asset. The deferred tax asset is recognized in the accompanying balance sheet as follows at June 30, 2009:

Deferred tax assets:				
Net operating loss carryforward	\$	64,000		
		64,000		
Valuation allowance		(64,000)		
	\$	-		

Management believes that the valuation allowance at June 30, 2009 should be maintained at 100% of the deferred tax asset amount. The valuation allowance will be assessed each year-end and adjusted as necessary based on management's estimates of the realizability of the asset.

NOTE 6 CONCENTRATION OF CREDIT RISK

As of June 30, 2009, the Company has concentrated its loans to one entity, Los Angeles LDC, Inc. in the total amount of \$3,400,000 as described in note 3.
